Upload a file

The screenshot shows the Microsoft Fabric web interface. The 'Upload files' dialog box is open, displaying the path 'Ms_Fabric_LH LAB/Lab_2_LH/Files/'. The 'Overwrite if files already exist' checkbox is checked. The 'Upload' button is visible. Below the dialog, the 'Current uploads' section shows a table with the following data:

File Name	Lakehouse Name	Progress
sales.csv	Lab_2_LH	3 MB / 3 MB

The screenshot shows the 'Files' view in the Microsoft Fabric web interface. The breadcrumb path is 'Ms_Fabric_LH LAB > Lab_2_LH > Files'. The table shows the following data:

Name	Date modified	Type	Size
sales.csv	5/30/2026, 6:13:52 ...	csv	3 MB

Use SQL to query tables

The screenshot shows the Microsoft Fabric SQL query editor interface. The left sidebar contains the Explorer pane with 'Warehouses' and 'Queries' sections. The main editor area displays a SQL query for 'SQL query 1'. The query is as follows:

```
1  
2 SELECT Item, sum(Quantity * UnitPrice) AS Revenue  
3 From sales  
4 Group by Item  
5 Order By Revenue DESC;
```

Below the query editor, the 'Results' tab is active, showing a table with 2 columns: 'Item' and 'Revenue'. The table contains 130 rows of data, with the first 12 rows visible in the screenshot. The status bar at the bottom indicates 'AutoSave: On (Saved)', 'Succeeded (4 sec 85 ms)', and 'Copilot completions: Off'.

	Item	Revenue
1	Road-150 Red, 48	1205876.99

Create a visual query

The screenshot displays the Microsoft Fabric interface. On the left, the Explorer pane shows the workspace structure for 'Lab_2_LH', including Schemas (dbo), Tables (sales), Views, Functions, and Stored Procedures. The main area shows a 'Visual query 1' being created. The query diagram includes a 'Source' (sales) and a 'Table' (sales). The results table below shows columns 'SalesOrderNumber' and 'LineItems' with 99+ rows. The status bar at the bottom indicates 'Completed (1.66 s) Columns: 2 Rows: 99+'.

	SalesOrderNumber	LineItems
1	SO47512	1
2	SO63011	2
3	SO49617	1

Create a visual query

The screenshot displays the Microsoft Fabric Visual Query editor interface. On the left, the 'Explorer' pane shows the 'Lab_2_LH' workspace with a 'Sales' table selected. The main canvas shows a visual query diagram with a 'Source' (Sales table) and a 'Table' (Visual query 1). A 'Choose columns' dialog box is open, allowing the user to select columns to keep. The dialog lists columns: SalesOrderNumber, SalesOrderLineNumber, OrderDate, CustomerName, EmailAddress, Item, Quantity, and UnitPrice. The 'SalesOrderNumber' and 'SalesOrderLineNumber' columns are selected. The background shows a table of data with columns: Item, Quantity, UnitPrice, and TaxAmount.

Item	Quantity	UnitPrice	TaxAmount
Mountain-100 Silver, 44	1	3399.99	
Mountain-100 Black, 48	1	3374.99
