

DP-600 : Implement analytics solutions using Microsoft Fabric

Exercise 4 : Get started with Real-Time Intelligence in Microsoft Fabric

- **Create a workspace**
- **Create an eventstream**
- **Create an eventhouse**
- **Query the captured data**
- **Create a real-time dashboard**
- **Create an alert**

▶ Create an eventstream

The screenshot displays the Microsoft Fabric Real-Time hub interface in a web browser. The browser's address bar shows the URL: `app.powerbi.com/workloads/oneriver/hub?experience=fabric-developer&selectedWorkspaceObjectId=45d654c2-4501-48cc-b7f4-e6b139e67f02`. The interface features a left-hand navigation pane with icons for Home, Workspaces, Copilot, OneLake catalog, Monitor, Real-Time (highlighted with a blue box), and Workloads. The main content area is titled "Real-Time hub" and "Discover, analyze, and act on data-in-motion". It includes a "Streaming data" section with an "Add data" button (highlighted with a blue box) and a "Subscribe to" list containing Business events, Fabric events, and Azure events. Below this is a "Browse" section with an "Event schema registry" link. The right side of the main area contains three cards: "Learn to monitor streaming data", "Subscribe to OneLake events", and "Act on Job events". At the bottom, a "Get started with real-time data" section offers four options: "Try a sample scenario", "Free hands-on workshop", "Explore Fabric events", and "Connect data sources".

DP-600 : Implement analytics solutions using Microsoft Fabric

Create an eventhouse

The screenshot shows the 'System overview' page for the Eventhouse 'RTP_STOCK_EH_4'. The left sidebar contains navigation options: Home, Workspaces, Copilot, OneLake catalog, Monitor, Real-Time, and Workloads. The main content area includes:

- Eventhouse storage:** A gauge chart showing 'Original size' and 'Compressed size' at 0 B, with a 'Premium' tier indicator.
- Storage resources:** A bar chart showing 'Eventhouse storage (compressed)' at 0 B.
- OneLake availability:** A bar chart showing availability status.
- Activity in minutes:** A gauge chart showing 0 minutes of activity.

The right sidebar displays 'Eventhouse Details' (Region: Central India, Query URI, Last ingestion: N/A, Ingestion URI, Always-on: Off, Python plugin: Not installed) and 'Related elements' (RTP_STOCK_EH_4).

The 'Get data' window is titled 'Pick a destination table and configure the source'. It shows the configuration for an Eventstream source connected to the 'RTP_STOCK_EH_4/stock' table.

Select or create a destination table:

- Search: [Search]
- Selected table: RTP_STOCK_EH_4 / stock

Configure the data source:

Create a data connection to ingest data from Eventstream.

- Workspace: RTP_WS_4
- Eventstream: new_eventstream
- Stream: new_eventstream-stream
- ☐ Process event before ingestion in Eventstream
- Data connection name: new_eventstream_toj7sj

Navigation buttons: Cancel, Back, Next.

The screenshot displays the Microsoft Fabric user interface. On the left, a sidebar contains navigation links: Home, Workspaces, Copilot, OneLake catalog, Monitor, Real-Time, Workloads, and RTP_WS_4. The main area shows a 'Home' tab with a 'Manage' sub-tab. A toolbar at the top includes options like 'Add visual', 'Add Markdown', 'Add alert', 'Add data source', and 'Add parameter'. Below this, a 'Time range: Last 1 hour' filter is visible. A bar chart titled 'Average Prices' (As of 7 minutes ago) displays data for three symbols: BMZM, HOOJ, and NSFT. The y-axis represents price, ranging from 0 to 3k. The legend indicates the data series is 'avgPrice'.

On the right, the 'Add rule' dialog is open. It shows the following configuration:

- Source:** Stock Dashboard / Average Prices
- Query:**

```
stock
| where ["time"] > ago(5m)
| summarize avgPrice=avg(todecimal(bidPrice)) by symbol
| project symbol , avgPrice
```
- Run query every:** 5 minutes
- Condition:**
 - Check:** On each event when
 - Grouping field *:** symbol
 - When *:** avgPrice
 - Condition:** Increases by
 - Value:** 100
 - ☐ Percent (%)
- Occurrence:** Every time the condition is met

A green 'Create' button is located at the bottom of the dialog.
