

DP-600 : Implement analytics solutions using Microsoft Fabric

Exercise 12 : Enforce semantic model security

- Review the data model
- Create static roles
- Validate the static roles
- Add the Salesperson table
- Create the dynamic role
- Validate the dynamic role

DP-600 : Implement analytics solutions using Microsoft Fabric

Review the data model

DP-600 : Implement analytics solutions using Microsoft Fabric

➤ create static roles

Manage security roles

Create new security roles and use filters to define row-level data restrictions.

✓ Successfully applied role changes.
